The Nordic Library Conference is an initiative from the Nordic Best Practice network. The purpose of the network is to promote new projects and partnerships within the field of multicultural library services. The network consists of The State and University Library of Denmark, The National Library of Norway and The National Library of Sweden.

The conference is within the framework of Norway's chairmanship of the Nordic Council of Ministers 2012, and also a continuation of the Future Library, which was held in Finland in October 2011 (under the Finnish chairmanship).
